Summary

Flutter Developer with 1+ year of experience building enterprise-grade cross-platform mobile applications for international clients. Skilled in scalable architecture, state management (GetX, Bloc), and real-time API integrations. Experienced in developing secure mobile solutions involving NFC, BLE beacons, face recognition, and AI-powered workflows using Flutter and modern mobile engineering practices.

Skills

Languages: Dart

Frameworks & Tools: Flutter, Firebase, Supabase

State Management: Bloc, Cubit, GetX

Architecture & Practices: Clean Architecture, MVVM, SOLID Principles

Backend & Integration: REST APIs, JSON

Mobile Features: Push Notifications, Deep Linking, Geolocation

Hardware & AI: NFC Scanning, BLE Beacons, Face Recognition, Google ML Kit

DevOps & Tools: Git, GitHub, CI/CD, GitHub Actions

AI Tools: ChatGPT, Gemini, GitHub Copilot, Cursor

Soft Skills: Problem Solving, Collaboration, Agile Development

Work Experience

CODELOUNGE - Software House

Lahore - Punjab

Flutter Developer

Jul. 2025 – Present

- Develop and enhance **2+ production Flutter applications** used in international projects for workforce tracking and site management.
- Engineer enterprise mobile features across **2 core operational domains—workforce tracking and site management—using Flutter and Dart.**
- Integrate **3 access-control technologies—NFC, Bluetooth Low Energy (BLE) beacons, and face recognition—into secure identity-verification and entry workflows.**
- Build **2 types of operational modules—inspection and real-time tracking—with API integrations** for live field-data synchronization.

Projects

CeertifAi

- Developed an enterprise mobile app for workforce tracking and site management.
- Built NFC, BLE beacons, and face recognition workflows for secure access control.
- Applied Clean Architecture and GetX for scalable state management.
- Integrated AI-powered material classification and real-time inspection features.

Quick Quran Learning Urdu - [Android](#)

- Developed a Quran learning app with Urdu Tafseer and Tajweed support.
- Implemented deep linking and external content integration.
- Built scalable and high-performance UI using Flutter.

Education

University of Sargodha

Bhakkar, Pakistan

Bachelor of Science in Information Technology (BSIT)

2020 – 2024
