Summary

Flutter Developer with 1+ year of professional experience building feature-rich Android and iOS applications using Flutter and Dart. Skilled in REST APIs, third-party SDKs, native integrations, Clean Architecture, Bloc/GetX, debugging, performance optimization, NFC, BLE beacons, and face recognition.

Skills

Languages & Frameworks: Dart, Flutter

State Management: Bloc, Cubit, GetX

Architecture: Clean Architecture, MVVM, MVC, SOLID Principles

Testing & Debugging: Unit Testing, Widget Testing, Integration Testing, Flutter Test, Flutter DevTools

Backend & APIs: REST APIs, JSON Parsing, Firebase, Supabase, Third-party SDKs, Dio

Mobile Development: Responsive UI, Android/iOS, Push Notifications, NFC, BLE Beacons, Face Recognition, Deep Linking, Geolocation, Figma to Flutter UI

Tools: Git, GitHub, CI/CD, Postman, Android Studio, VS Code

AI Development Tools: Cursor, Codex, GitHub Copilot, ChatGPT

Local Storage: Isar, Sqflite, SharedPreferences, Flutter Secure Storage, Database Migrations

Work Experience

CODELOUNGE

Lahore - Punjab

Flutter Developer

July 2025 – Present

- Develop and maintain 2+ production cross-platform applications using Flutter and Dart, delivering responsive features for workforce tracking, inspections, and site management.
- Build scalable modules using Clean Architecture, Bloc/Cubit, GetX, reusable components, and clean coding standards while collaborating with backend and product teams.
- Integrate RESTful APIs, JSON data, and third-party services for authentication, inspections, task management, workforce tracking, and real-time application workflows.
- Implement Android/iOS platform integrations, including NFC scanning, BLE beacon detection, face recognition, permissions, and background application behavior.
- Debug application issues and optimize Flutter application performance using Flutter DevTools and structured debugging workflows.

Projects

CeertifAi - Enterprise Workforce and Inspection Application

- Developed enterprise Flutter modules for workforce tracking, inspections, and construction site operations.
- Integrated REST APIs for inspections, tasks, workforce operations, authentication, and project data.
- Implemented NFC scanning, BLE beacon detection, and face recognition involving platform-specific mobile capabilities.
- Integrated AI-powered material classification workflows and Google ML Kit functionality.

Quick Quran Learning Urdu - Published Flutter Application | [Google Play](#)

- Built a Quran learning app with Urdu Tafseer and Tajweed support.
- Implemented deep linking and external content integration.
- Built scalable and high-performance UI using Flutter.

Education

University of Sargodha

Bachelor of Science in Information Technology (BSIT)

Bhakkar, Pakistan

2020 – 2024
